

Neptech Inc.

Manufacturer of FLEXOTHERM Products

FLEXIBLE OUTDOOR WORK MAT

Neptech Inc. manufactures a flexible work mat for a multitude of applications and jobs. The Flexotherm™ Outdoor Work Mat provides a complete and even heating throughout.

Our blankets are UV, water, and scuff resistant. This allows for our blankets to be perfectly integrated into any type of environment

FEATURES

- Outfitted with a GFCI for extra security for both the product and user
- High Efficiency Carbon Heating Grid evenly distributes heat over the entire blanket area
- Heating element, unlike others, decrease current as temperature increases
- Constructed of Heavy Duty Vinyl that is *NFPA Certified Flame Retardant*
- Blankets are outfitted with adjustable retaining straps and quick release plated buckles
- Vinyl Panel Perimeters are sealed with a fully welded seam
