

Neptech Inc.

Manufacturer of FLEXOTHERM Products

SEWING CAPABILITIES

Neptech Inc. / Flexotherm™ main objectives are to offer our customers the best quality products available and to get those products to our customers in a quick fashion to reduce downtime. To reach those objectives, we have outfitted our manufacturing facility with custom designed, industrial sewing stations.

With our unique sewing capabilities, we are able to produce custom made products for any type of job or application. Because our sewing is done in-house and not outsourced to another company, we are able to reduce downtime experienced and get your product to you faster.
